burg.

TO OUR CUSTOMERS.

We would say to those unacquainted with us that this Nursery was established in 1897 and since that time has been under the same management. The stock of trees, plants and vines offered in this list is in most thrifty condition and first-class in every respect.

We are not unmindful of the many friends whose patronage and friendship so greatly assisted us; we thank them for favors shown us and assure them as well as others, whom we trust will become our patrons, that our stock is now better than ever.

Our office has been greatly enlarged and our force both in the office and on the grounds is better equipped for handling a large business.

We have adopted new and up-to-date methods of digging, billing out, packing etc., and are confident we can get all orders out in good condition.

Our stock will be billed out and packed under cover, so customers may rely upon receiving stock in prime condition. We call your attention to the new varieties of fruits, some of which will be valuable.

Neighbors by clubbing together can have trees delivered freight paid if sufficient orders are sent in.

The above cut represents the Diploma awarded F. O. Harrington on apples at the Paris Exposition in 1900. Our scions are cut mainly from his orchards, and customers can depend on getting trees that will fruit and produce varieties wanted.

We use only the short piece root graft for apples which makes the best trees for Iowa planters.

Guarantee of Genuineness.

While we exercise the greatest diligence and care to have stock true to label, it is mutually agreed between ourselves and the purchaser that our guarantee shall in no case make us liable for any sum greater than price originally charged for stock that proves untrue.

Send in your orders early. Don't wait until the last day. We may be short on the varieties wanted.

Terms of Payment.

Cash, unless specially agreed otherwise. Six per cent interest charged on all accounts not paid in 30 days. Prices are net. Boxing and bailing extra.

Plants furnished as follows: 50 at 100 rates, 500 at 1,000. To get 10 rate all should be one variety.

Location.

On the C. M. & St. P. R. R., about half way between Cedar Rapids and Ottumwa. Office and packing house forty rods from depot.

Telephone.

Local Telephone in office - - No. 216

STATE OF IOWA.

Certificate of Nursery Inspection.

*THIS IS TO CERTIFY, That
the Growing Nursery Stock and
Premises of*

H. Harrington & Co ,

*situated in Williamsburg, County of
Iowa, State of Iowa, have been in-
spected according to the provisions of
Chapter 53 of the Acts of the Twen-
ty-seventh General Assembly, and

No. Spy	

LEIVLAND.—The finest early variety we have ever seen. Ripens with Yellow Transparent, but is a better apple to handle. Apples sold on this market at \$1.00 per bushel when other summer apples were sold at thirty or forty cents.

WINDSOR APPLE.—Originated in Wisconsin and grown in Iowa County for 18 years. You must try it to appreciate its value. Apple large, red, sub acid, season December to March. Am. Pom. Society reported it favorable where tried. Recommended for trial by Prof. H. C. Price, of Ames. One of the varieties that took the first prize at the Paris Exposition in 1900. Another year's fruiting of this splendid variety only strengthens our claims for it.

WINTER BANANA.—The name is most appropriate as it has a delightful banana perfume. Fruit keeps well until spring; the color is a striking red blush on a deep yellow ground; it is of large size and very showy in appearance, roundish inclining to be conical, stalk $\frac{3}{4}$ of an inch long, cavity moderate, apex shallow. Originated in Indiana. Tree a very early fruiter.

McINTOSH.—The original tree was discovered and saved with several other seedlings of about 10 or 15 years old, by John McIntosh, in clearing a building place in the present village of Dundale, Ontario, Canada, about 1798. The original tree, over one hundred years old, is still fruiting. It did not reach the United States until after 1870.

Chas. Downing described it as "a good annual bearer of fair handsome fruit of excellent quality and valuable for home use and market." It belongs to the Fameuse group and does well wherever tried. Season, six to eight weeks later than Fameuse.

VARIETIES CRABS.

	each	10	100
6 to 7 ft, 3 yr, $\frac{3}{4}$ up -----	22c	\$2.00	\$15.00
Alaska	Martha		
Hyslop	Florence		
Whitney No. 20			

FLORENCE CRAB.—By far the most valuable crab ever fruited here. Early, large, beautiful, excellent, youngest bearer, most prolific, most profitable of all. The crab to plant in small space.

We promise you extra quality—not extra count.

Golden Rule we apply. We treat our customers as we like to be treated.

There are 365 days in each year when it is bad policy to buy trees of a stranger representing a firm whose reputation is not above reproach.

The Correct

BEATTY PLUMS.—originated in Benton County and bears the name of its originator. Tree vigorous, upright grower, with the best of foliage. A true Americana. Fruit large to very large, beautifully colored; transparent yellow, blushed with red; combines more good qualities than any native plum yet produced; especially fine for canning as it develops no acid in cooking, and there is none better for dessert.

We promise you extra quality—not extra count.

Golden Rule we apply. We treat our customers as we like to be treated.

There are 365 days in each year when it is bad policy to buy trees of a stranger representing a firm whose reputation is not above reproach.

TUBB'S CHERRY.—Originated by J. Tubb, at Iowa City, Iowa. Cherry dark red, very meaty large size, and one of the best canning cherries known. Season about the same as its parent, (English Morello). Tree extremely hardy and a good fruiter. The original tree is about 30 years old and still fruiting.

The Correct Way to Dig Trees.

BEATTY PLUMS.—originated in Benton County and bears the name of its originator. Tree vigorous, upright grower, with the best of foliage. A true Americana. Fruit large to very large, beautifully colored; transparent yellow, blushed with red; combines more good qualities than any native plum yet produced; especially fine for canning as it develops no acid in cooking, and there is none better for dessert.

LOUDEN RASPBERRY.—The superior points of this excellent red raspberry are vigor of growth, large fruit, beautiful, rich, dark crimson color; good quality and marvelous productiveness and hardiness, enduring winters without protection. It stands shipping the best of any variety, and will remain on the bushes the longest without injury, and promises to become the leading variety. Season medium to late.

PEARS.

	each	10	100	1000
5 to 7 ft., $\frac{3}{4}$ up	30c	\$2.75	\$25.00	\$180.00

PEACH.

5-6 ft.	each 20c, per 100, \$15
Bailey	Bokara No. 3
Champion	Elberta
Fitzgerald	Triumph
Crosby	
Lone Tree 4-5 ft.	each 25c

LONE TREE PEACH.—Originated from seed planted nineteen years ago, which has fruited on an average of two years out of three since. Fruit excellent in quality, medium size; the color a green back ground covered with yellow, with blush on one side. The only variety to fruit without protection two years ago.

GOOSEBERRIES.

Houghton	each 10c, per 100	\$5.50
Champion	" 15c, " "	\$10.00
Downing	" 15c, " "	\$7.00
Pearl	" 15c, " "	\$8.00

PEARL GOOSEBERRY.—This desirable variety is a cross between Houghton and one of the largest English varieties. It is hardy, free from Mildew, and taking into consideration size, quality and productiveness, ought to be just what you are looking for.

We use a Stark Tree Digger with six or eight horses and with which we are able to dig 50,000 trees per day and get better roots than is possible by hand.

CURRENTS.

McPike 1 yr., No. 1-----	" 40c	

For large number of grape vines write for prices.

CAMPBELL'S EARLY GRAPE.—Strong, vigorous, hardy vines; large and compact clusters, a good keeper and shipper; berries large and nearly round. Flavor rich, slightly vinous. Very early.

McPIKE GRAPE.—Originated by H. G. McPike, of Mt. Lookout Park, Alton, Illinois; a seedling of Worden with all its good qualities, unequaled in leaf, perfect character in every point, superb quality; color and flavor like Worden, berries very large, measuring three inches in circumference; easily the best grape grown, nearly seedless, without a fault or peer.
